## **DETAILED ACTION**

### ***Election/Restrictions***

Claims 1-10, 13-26 and 36-37 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 11-12 and 27-35, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Claims 11-12 and 27-35 hereby rejoined and fully examined for patentability.

### ***Allowable Subject Matter***

Claims 1-37 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach nor suggest, in the claimed combination, a magnetic switch assembly with a first switch element, a second switch element in spaced relationship to the first element, and an electrically conductive, shiftable body, said body shiftable between a first position where the body is in simultaneous contact with said first and second switch elements, and a second position where the body is out of said simultaneous contact with the first and second switch elements; and said first switch element formed of electrically conductive material which magnetically attracts said body, said body formed of electrically conductive, permanently magnetized material which is magnetically attracted to said first switch element, said body remaining in contact with said first switch element when the body is in either of the first or second positions thereof, by virtue of the magnetic attraction between said body and said first switch element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
